## 1. POLICY DESCRIPTION:

Abdominoplasty/Panniculectomy

## 2. RESPONSIBLE PARTIES:

Medical Management Administration, Utilization Management, Integrated Care Management, Pharmacy, Claim Department, Providers Contracting.

## 3. DEFINITIONS:

**Abdominoplasty:** A surgical procedure that tightens the lax anterior abdominal wall and removes excess abdominal skin and other tissue.

**Panniculectomy:** The surgical excision of the panniculus (abdominal fat apron). This procedure is deemed cosmetic when performed solely to refine or reshape structures or surfaces that are not functionally impaired. When performed to correct or relieve structural abdominal wall defects that result in significant functional impairment, they are deemed reconstructive.

**Bariatric Surgery:** A surgical procedure of the upper gastrointestinal tract that is designed to cause weight loss. Bariatric procedures can be restrictive, malabsorptive, or a combination of both.

**Functional Impairment:** Functional impairment refers to an extensive redundancy of skin and fat folds (e.g., a panniculus below the pubis). The development is often secondary to massive weight loss. An abdominal panniculus of this extent is causal to functional impairment.

## 4. POLICY:

### Related Medical Guideline Cosmetic Surgery Procedures

In the case that more than one procedure is to be performed, coverage will only be applicable to the reconstructive procedure; the cost of the cosmetic procedure (i.e., abdominoplasty in association with panniculectomy) will be the responsibility of the member (as per group contract, individual contract or policy). Additionally, photographic evidence must accompany written documentation substantiating medical necessity.

### 1. Panniculectomy Coverage Criteria

- a. InterQual Guidelines are used by MetroPlus to determine the medical necessity of this procedure.

2. Abdomonplasty is considered cosmetic and not covered.

## 5. LIMITATIONS/EXCLUSIONS:

The following procedures, when performed to assist with back pain, are not considered medically necessary:

- a. Abdominoplasty
- b. Diastasis recti repair
- c. Panniculectomy

## 6. APPLICABLE PROCEDURE CODES:

| CPT          | Description   |
|--------------|---|
| <b>15830</b> | Excision, excessive skin and subcutaneous tissue (includes lipectomy); abdomen, infraumbilical panniculectomy |

## 7. APPLICABLE DIAGNOSIS CODES:

| CODE         | Description  |
|--------------|--|
| <b>E65</b>   | Localized adiposity  |
| <b>L98.7</b> | Excessive and redundant skin and subcutaneous tissue (eff. 10/01/2016) |
| <b>M79.3</b> | Panniculitis, unspecified  |
