

Dear Provider:

The Americans with Disabilities Act (ADA) requires providers to make reasonable access and accommodations for all persons with disabilities. MetroPlusHealth has been visiting contracted primary care and specialty care provider locations to verify key elements of ADA compliance in support of our Medicaid Managed Care, HARP, and other integrated health programs serving New York City residents.

MetroPlusHealth is providing you with the opportunity to self-attest to the below ADA standards.

Please check the applicable box next to each standard below, have the designated representative sign and return the attestation with your enrollment packet.

Table with 3 columns: ADA STANDARDS, YES, NO. Rows include standards such as 'Building has handicap designated parking', 'Building has automatic entry option', 'Building has elevator for public use', etc.

Provider service locations that attest to being ADA compliant will be published as such in the MetroPlusHealth Provider Directory.

I attest to the best of my knowledge the above information is true, accurate and complete.

Practice Name: \_\_\_\_\_ Practice Tax ID#: \_\_\_\_\_
Practice Address: \_\_\_\_\_ City: \_\_\_\_\_ State: \_\_\_\_\_ ZIP: \_\_\_\_\_
Print Name: \_\_\_\_\_ Signature: \_\_\_\_\_
Title: \_\_\_\_\_ Date: \_\_\_\_\_

Thank you,

(Include with Provider Enrollment Packet or recertification information.)
